INTERLOOP DAIRIES

One of the largest corporate dairy farms in Pakistan, spanning 160 acres and housing over 10,000 livestock, with an annual production capacity of 50 million liters of milk.

A joint venture with Rella (Turkey) & Crystal (Pakistan), IRC pioneers producing the premium quality mozzarella cheese, butter, whey powder and desi ghee, for domestic as well as international markets.

Printkraft

Pakistan's benchmark for sustainable printing - the country's only LEED GOLD certified facility. Equipped with European technology, it delivers top-tier packaging solutions to Textiles, Food & Beverages, Pharmaceuticals, FMCG and more.

Manages supply chain solutions - 250+ truck fleet for Inland Transportation, Warehousing, International Freight & Clearing, network across 45+ countries, and the Sole Distributor of Samsung Spare Parts in Pakistan.

The strategic IT partner for growth, specializing in Cloud, AI & Automation Solutions. It provides Managed IT Architecture and Digitizing Business Processes to accelerate success.

Set to elevate healthcare services in Faisalabad, a 422-bed tertiary care hospital in collaboration with Shifa International is designed with world class medical and rehabilitative technology.

Core Values

To be an agent of positive change for the stakeholders and community by pursuing an ethical and sustainable business.

Octans Powers Friesland-Campina

Octans Digital is officially partnering with FrieslandCampina, deploying the powerhouse capabilities of CloudNest to anchor their next phase of global digital acceleration. This collaboration is built on a shared vision of high-performance infrastructure.

By integrating CloudNest, FrieslandCampina is securing an elite digital ecosystem designed for uncompromising uptime and enterprise-grade resilience. It not only eliminates the technical bottlenecks and operational friction that slow down innovation but also enables FrieslandCampina to scale their digital footprint with absolute precision.

This alliance marks a significant step forward in building a future-ready foundation. By combining Octans' technical agility with FrieslandCampina's global reach, we are ensuring a digital journey that is secure, seamless, and built for long-term growth.

Unpacking the Stack:

Dynamic Scalability: Rapid resource provisioning that moves at the exact speed of business requirements.

Fortified Governance: Advanced security frameworks and compliance protocols to safeguard mission-critical data.

Managed Continuity: 24/7 proactive monitoring and expert support, ensuring that global operations never skip a beat.

New Monthly Benchmark at IRC: 138 tons

IRC Dairy marked a significant operational milestone in November 2025, with Whey Powder production reaching its highest-ever monthly output of 138 tons.

This achievement reflects strong cross-team coordination, sharper operational planning, and consistent focus on quality at every stage of production. From planning to execution, multiple departments worked in sync to deliver results that set a new internal benchmark.

Beyond the numbers, this milestone highlights how disciplined processes, ownership, and teamwork continue to translate into measurable performance gains. It stands as a shared success for everyone involved and reinforces IRC's steady progress toward higher efficiency and reliability.

A Partnership Built for What Matters Most

Octans Digital's strategic partnership with Keenu, focused on delivering a secure, resilient, and highly available infrastructure to support their mission-critical applications.

Under this collaboration, Octans Digital will enable enterprise application hosting, dual-site data center resiliency, and secure transaction systems to ensure seamless and uninterrupted operations.

The solution is further strengthened by 24/7 infrastructure monitoring, enterprise-grade network security, and robust disaster readiness.

This partnership represents a shared commitment to building a future-ready digital foundation designed to scale, safeguard operations, and support sustained business growth.

Global Food Safety Excellence

IRC has successfully completed the FSSC-22000 Surveillance Audit with no major non-conformities, reaffirming the effectiveness and consistency of its Food Safety Management System. This achievement reflects the organization's strong focus on food safety, compliance, and operational discipline.

The FSSC-22000 standard plays a critical role in ensuring the safety and quality of food products by emphasizing:

- Effective control of food safety hazards across all processes
- Consistent compliance with regulatory and customer requirements
- Continuous improvement through regular monitoring and preventive measures

YUM! Certification – Tier 2

IRC has achieved YUM! Certification - Tier 2, marking a proud milestone in meeting globally recognized food safety and quality standards.

This certification reflects the strength of IRC's food safety system, quality controls, and alignment with YUM's operational requirements, reinforcing IRC's position as a trusted dairy partner for leading global food brands.

Certified for Quality

Momentum Logistics have been officially awarded the ISO 9001:2015 certification! This internationally recognized standard for Quality Management Systems (QMS) is a powerful validation of the firm's capacity to consistently deliver logistics services that meet both customer and regulatory expectations.

The certification reaffirms a core commitment to operational excellence, reliability, and customer satisfaction. Momentum Logistics extends gratitude to the entire team for the relentless effort. Appreciation is also extended to customers for their trust and to partners for their support.

Octans' PaaS e-Roadshow

Octans Digital successfully hosted its first e-roadshow, showcasing the power and capabilities of the OD PaaS (Platform as a Service).

The virtual session brought together cloud leaders, technology teams, and developers for an in-depth look at how OD PaaS accelerates digital innovation. Highlights included platform introduction, end-to-end journey from idea to production, live build demonstrations, interactive Q&A, and key cloud strategy insights.

Participants gained a comprehensive understanding of how OD PaaS simplifies cloud adoption, speeds deployment, and empowers teams to build, scale, and innovate with confidence. This milestone reinforces Octans Digital's commitment to driving modern, cloud-first transformation across industries.

Champions on the Field

Momentum Logistics proudly celebrated a stellar achievement on the cricket field, winning the 5th Annual Shaheen FOAP Cricket Tournament 2025 against 12 leading logistics companies.

The team displayed remarkable skill, stamina, and teamwork, culminating in a commanding 7-wicket victory in the final match. Individual brilliance shone through as Shahid Iqbal was named Best Bowler, Gulzar Yousaf earned Man of the Match in the semi-final and Best Player of the Tournament, and Nabeel Shaukat delivered a decisive performance in the final. Anchoring the squad was Captain Muhammad Sarwar, whose leadership guided the team throughout the tournament.

This victory reflects not just athletic excellence, but the values of discipline, collaboration, and resilience that define Momentum Logistics, showcasing the achievement when performance and teamwork come together.

Momentum at Build Pakistan Expo

Momentum Logistics showcased its capabilities at the Build Pakistan Expo, a leading platform for Pakistan's construction, infrastructure, and allied industries.

The team engaged with industry leaders, partners, and decision-makers, highlighting Momentum's 3PL expertise and end-to-end supply chain solutions for complex, time-sensitive operations.

The participation reinforced Momentum's commitment to operational excellence, long-term partnerships, and the vital role logistics plays in turning ambitious projects into reality.

Coffee with CEO Momentum

Momentum Logistics brought teams together through Coffee with the CEO sessions held across regional offices and warehouses, offering an open and informal space for direct interaction with leadership.

Free from presentations and formal agendas, these conversations encouraged employees to ask questions, share ideas, and engage in meaningful dialogue.

The sessions reflect Momentum's focus on openness, alignment, and building a connected and collaborative workplace across the organization.

Wellbeing & Safety

Prioritizing Wellbeing at Work

Interloop Holdings, in collaboration with CCL Pharmaceuticals, focused on an often-overlooked aspect of wellbeing - bone health. The awareness drive at the Head Office and subsidiaries, IRC Dairy Products and Printkraft, offered free Bone Mineral Density tests and expert consultations to address calcium deficiency and malnourishment.

By equipping employees with essential knowledge, this initiative empowers the workforce to take proactive steps toward long-term health, ensuring a stronger, healthier team for the future.

Building a Healthier Tomorrow

Interloop Holdings Private Limited reaffirmed its commitment to Care through a thoughtfully curated session led by Muhammad Faisal Naveed, HOD People & Organization, on World Mental Health Day. The session provided a meaningful platform to reinforce the importance of mental wellbeing in the workplace.

Designed to encourage conversation beyond conventional learning, the discussion promoted open dialogue and active participation. Employees shared perspectives on key themes such as wellbeing, resilience, and maintaining a healthy work-life balance.

This initiative reflects Interloop Holdings' ongoing focus on creating a supportive and inclusive workplace culture, aligned with our People First values.

Raising Awareness, Saving Lives

A small step today can make a meaningful difference tomorrow. Interloop Holdings hosted dedicated breast cancer awareness sessions at its Head Office, bringing together female employees from the subsidiaries as well. Live online access enabled wider participation, including female family members, and pink ribbons were shared as a symbol of support and awareness. Momentum Logistics also conducted a session at its premises.

Participants learned about personal risk factors, self-examination practices, and screening guidelines.

Prepared for the Unexpected

True safety comes from readiness - Momentum Logistics and IRC Dairy turned this principle into action through comprehensive training and emergency drills.

Momentum Logistics organized First Aid and Firefighting sessions for staff and fleet drivers, led by experts from District Rescue 1122, providing hands-on practice in life-saving interventions and emergency response.

IRC Dairy conducted Evacuation Fire Drills, Fire Fighting, and First Aid training, strengthening employees' confidence and competence in real-time scenarios.

Christmas Celebrations

Interloop Holdings came together with its subsidiaries to mark Christmas, sharing a moment of togetherness.

The occasion offered colleagues an opportunity to connect and cherish in a friendly environment.

The celebration reflected the shared values, culture, and sense of unity that bring our teams together and continue to strengthen collaboration across Interloop.

A Learning That Changed My Perspective

When I joined Interloop's Project Management Department in 2016, I didn't realize how much the journey would shape me. It began by learning on the job, but I quickly understood that project management is more than execution - it's about foresight, risk awareness, and informed decision-making.

As my exposure grew, so did my desire to understand the "why" behind every plan and timeline. That curiosity led me to pursue the PMP certification. Balancing work and study were challenging, but it taught me discipline and focus. Interloop's supportive environment made the effort feel meaningful and encouraged me to keep going.

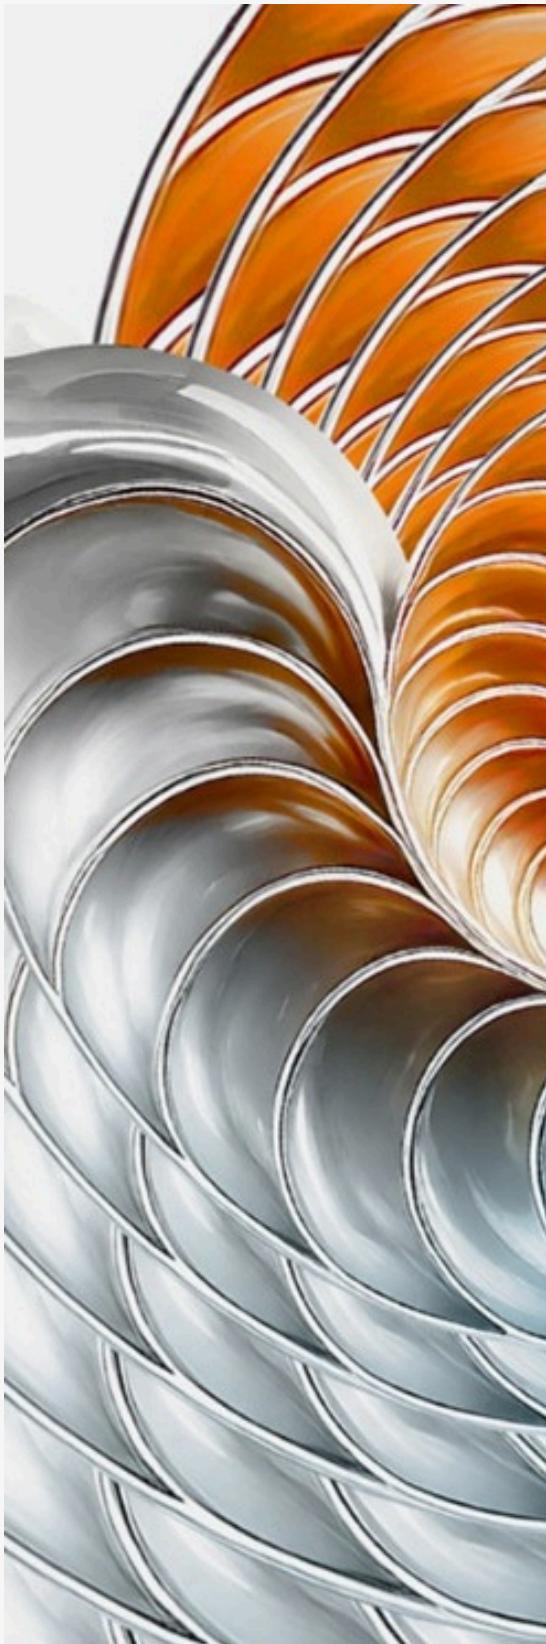

Clearing the PMP exam in 2018 marked a turning point. I approached projects with greater clarity, confidence, and ownership. Planning became sharper, risks more manageable, and collaboration across teams more purposeful.

This journey reminded me that growth takes patience and commitment. I move forward with gratitude - for the learning, the trust, and a workplace that truly invests in its people.

Tech Trends 2026: From Experimentation to Impact

FEATURED INSIGHT

Turning IT Experiments into Business Impact

How can emerging technologies like AI and robotics create real business impact? Deloitte's Tech Trends 2026 reveals the five critical trends organizations must navigate to move from experimentation to measurable outcomes.

This strategic guide highlights the shift from pilots to enterprise-scale adoption, emphasizing process redesign, AI-native organizational structures, and cybersecurity readiness to stay competitive in a rapidly evolving landscape.

Pakistan's Highest Cold Desert Katpana

The Katpana Desert, located near Skardu in Gilgit-Baltistan at an elevation of approximately 2,200 meters, is recognized as one of the highest cold deserts in the world. Unlike conventional deserts, Katpana experiences extreme winters, with temperatures often falling below -15°C , making it a rare geographical phenomenon.

During winter months, the desert's sand dunes are frequently blanketed by snow, creating a unique landscape where arid terrain and sub-zero alpine climate coexist.

This rare combination places Katpana among a small number of cold deserts globally and makes it significant for climate studies, high-altitude ecology, and environmental research.

The desert forms part of the broader Upper Indus Basin ecosystem, highlighting Pakistan's exceptional climatic diversity and reinforcing the region's importance in understanding climate variability across high-mountain environments.
